

Automatic Liquid Dish Machine Detergent

FOOD SERVICE PRODUCTS

DESCRIPTION: Brilliant's Automatic Liquid Dish Machine Detergent is a concentrated, high alkaline liquid ware-washing detergent containing no chlorine. Its unique blend of water conditioners allows Automatic Liquid Dish Machine Detergent to produce sparkling results, even in the hardest water conditions. The shipping container provides a convenient reservoir for any automatic dispensing equipment. Care should be exercised when using this product in the presence of silver, pewter and aluminum. Automatic Liquid Dish Machine Detergent contains strong alkali materials that could damage soft metals.

DIRECTIONS:

- Store pail in a safe place, preferably under the dish machine.
- Clear dispensing tube of obstructions.
- Machine water should be changed when noticeably dirty.
- Set detergent feeder for correct solution concentration. Use a ware wash alkali titration test on the wash water. Titration should be between 6 to 10; 6 for soft water and 10 for hard.
- For proper sanitizing. Rinse water temperature should be 180° - 190° F.
