

Concrete Pro Seal

CONCRETE SEALER/PROTECTOR

FLOOR CARE PRODUCTS

DESCRIPTION: PRIDE'S CONCRETE PRO SEAL is a high grade, 20% solids durable concrete sealer. This product completely seals and protects concrete surfaces from wear and stains from spills, and provides a superior gripping surface that helps prevent work place accidents.

DIRECTIONS:

- Prepare surface by thoroughly stripping and cleaning surface with **PRIDE'S POWER PUNCH** to remove all grease and other stains.
- Rinse floor thoroughly to remove all traces of soap and let completely dry before attempting the first coat. For extremely porous concrete, 16 hours is the recommended drying time.
- Apply sealer using an applicator or mop specifically for use of this product (see **PRIDE'S** product catalog for mops or applicators). Apply a heavy first coat as concrete is very porous. Let dry for 60 minutes.
- Apply 2 or 3 more medium coats, allowing 30 minutes drying time between coats.
- Retouch by applying one or two coats to worn area after cleaning. Finish will blend to prevent highlighted areas.
