

Non-Butyl Cleaner

WATER BASED CLEANER AND DEGREASER

SPECIALTY PRODUCTS

DESCRIPTION: **Non-Butyl Cleaner** is a heavy duty non-butyl cleaner that absorbs grease, oil, and protein based stains better than butyl-based products. Recommended an all food processing equipment. Concentrated and very economical to use. Non-flammable, non-toxic, non-corrosive and contains no solvents. It is excellent for use in automatic scrubbers

DIRECTIONS:

- *For general cleaning of floors, walls and fixtures:* Dilute concentrate 2 to 4 ounces per gallon of warm water. Mop, spray or sponge onto surface and allow to stand a few moments. Wipe off or rinse clean with water.
- *For food processing areas and equipment:* Dilute concentrate 12 to 16 ounces per gallon of warm water. Mop, spray or sponge onto surface and allow to stand a few moments. Surfaces that come in direct contact with food require a potable water rinse, otherwise rinsing is not usually necessary.
- *For heavy duty degreasing and industrial cleaning:* Dilute concentrate 32 ounces per gallon of warm water. Mop, spray or sponge onto surface and allow to stand at least 5 minutes. Scrub or brush thoroughly and rinse with clean water.
- The above directions are flexible rather than specific. Generally, a more diluted solution can be used, while for extreme conditions a less diluted solution may be needed. This product meets the maximum content requirements for Volatile Organic Compounds (VOC) as established by state and Federal regulations.
