

# Heavy Duty Oven & Grill Cleaner

## SPECIALTY PRODUCTS

**DESCRIPTION:** PRIDE's Heavy Duty Oven & Grill Cleaner is a high-end cleaner for the removal of grease, oils, and carbons from ovens, grills, hoods, vents, griddles, deep fryers, etc. It is designed to be sprayed or brushed on surfaces for quick, easy cleaning. It works best while surfaces are still warm. Dissolves deposits quickly for removal by either wiping or rinsing.

### DIRECTIONS:

- **For Ovens:** For best results, heat to approximately 200 degrees F., then turn off. Spray or brush full strength solution onto surface to be cleaned. Allow to soak for several minutes, then rinse with potable water using a cloth or sponge. Steel wool pads may be necessary for tough areas.
- **For Grills:** Warm Grill to approximately 150 degrees F. Dilute concentrate with equal parts water and pour on surface to be cleaned. Agitate with a scraper or aggressive type pad. Rinse with potable water using a cloth or sponge.
- **For Deep-Fat Fryers:** Drain all grease from fryer and rinse with hot water. Fill fryer to within 4 inches from the top and add 2 to 4 ounces of cleaner for each gallon of water. Boil solution for 15 to 20 minutes. Drain dirty solution and rinse thoroughly with potable water, then wipe dry.
