

Wood Floor Cleaner

WATERBASED WOOD FLOOR CLEANER

WOOD CARE PRODUCTS

DESCRIPTION: Pride's Wood Floor Cleaner is a totally volatile cleaner to thoroughly clean and prepare wood floors without leaving any residue. Excellent for use prior to applying waterborne coatings. Conventional floor cleaners leave a detergent residue that can cause adhesion and wear problems. This product is an ideal tack rag cleaner for removing soils and excess mop treatment.

DIRECTIONS:

- **For daily maintenance by tacking:** Add 12 to 16 ounces of concentrate, depending on soil conditions, to a mop bucket and fill with water. Soak 3 to 4 towels in solution until they are thoroughly wet. Wring towels out and place one towel flat on floor. Place push broom in middle of towel, pulling front half of towel over top of broom, and tack rag the floor. Repeat this procedure as towels get dirty.
- **For daily maintenance by damp mopping:** Add 12 ounces of concentrate to mop bucket and fill with water. Wring out and damp mop floor in usual manner. Do not over wet or flood floor with product.
- **For cleaning newly screened floors prior to finishing:** Add 12 to 16 ounces of concentrate, depending on soil conditions, to a mop bucket and fill with water. Soak 3 to 4 towels in solution until they are thoroughly wet. Follow directions above and tack the floor. This procedure must be repeated after each screening. After the final screening, the floor should be tack ragged a second time with fresh solution and clean towels prior to application of the finish.
